Perfect! That's exactly who Danny (Daniel on email) Hart wanted to loop in regarding the FAQ page issue: Melissa and Jennifer.

Thanks, Laura!

**Subject:** FW: Animas Q&As

Can someone please respond ? Then let's begin posting these Q&As on web. Will make it so much easier to respond to reporters who keep asking the same questions. And then we can update as we know more. (And of course, new Q&As will need to be vetted.) Rebecca should be getting some good ones on the daily calls- already vetted if we're providing answers to congressionals and media. Attached are the vetted Q&As to date. Can post these.

Paula:

I heard the press conference today but I didn't have a chance to ask a question.

Is contaminated water still being discharged from the King Mine?

Ron Curry said that five New Mexico water systems have been closed. What are the five systems?

Is there any precedent for this kind of a spill; any previous spills of this magnitude?

Thanks,

Olivier Uyttebrouck
